

IC Warehouse Parts Transfer Solution for Sage BusinessWorks Accounting 50

No more hand entry of inventory transfers, no more errors and greatly reduced labor costs.

The C&A IC Warehouse Parts Transfer Solution is designed to reduce labor cost and increase accuracy during the process of transferring parts from one warehouse to another. There are many companies that can benefit from creating multiple warehouses to track inventory. Re: Delivery Trucks, Work Flow Rooms, Remote Warehouses, Front Counter Store Fronts etc.

Typical Procedure

- Scan the parts that are being transferred to the other warehouse. (*Physical Warehouse, Room, Delivery Truck or Salesman's trunk.*)
- Drop the hand held scanner in its cradle.
- Drop and drag the data file on the hand held scanner to a folder on the computer.
- Run the C&A Warehouse Transfer program.
 - Choose the warehouse from.
 - Choose the warehouse to.
 - Input a date.
 - Input a short memo that identifies the transfer in the IC Transactions reports.
 - Push the [Upload] button and the parts are transferred to the designated warehouse.
- Delete the file from the hand held scanner and move to the next scan operation.
- At this time the SAGE BusinessWorks Inventory Control module has been updated, all reports will show the new inventory quantities by warehouse and you can run IC Transaction reports to verify the transfers if desired.
- All transfer files are also archived by day folders in case you need to verify a transaction.
